*A sub-fund of Skyline Umbrella Fund ICAV*

Class I Accumulation shares in Sterling

**ISIN:** IE00BKRRHJ13

**Investment Manager:** Fortem Capital Limited

**Fund Manager:** Davy Global Fund Management Limited (the "Manager")

**Investment Objective, Policies and Strategies**

- ~ The investment objective of the Fund is to generate a total return, including both capital growth and income, which reflects the total return of the Solactive Target Real Estate Index (the "Index").
- ~ The Fund will aim to match the performance of the Index net of the fees of the Fund.
- ~ Further details on the Index and any publications in relation to the Index, including Index constituents can be found here: [www.solactive.com](http://www.solactive.com)
- ~ The Index aims to track the performance of a basket of equity securities and collective investment schemes ("CIS") that cover a broad range of geographical regions, primarily in developed markets, and focuses on the real estate sector.
- ~ The Index tracks the total return of the underlying securities, considering transaction and replication costs.
- ~ The Index is reviewed and rebalanced on a monthly basis by the Index provider. The costs incurred by the Fund, which are associated with gaining exposure to the Index, will be impacted by the level of turnover of Index constituents when the Index is rebalanced.
- ~ Depending on market conditions and transaction costs, the Fund may track the performance of the Index (i) synthetically by investing indirectly in the constituents of the Index through the use of financial derivative instruments ("FDIs") (on exchange and over the counter) as outlined further below, (ii) through physical methods by purchasing the underlying constituents of the Index or (iii) a combination of both synthetic and physical methods.
- ~ To replicate index performance, the Investment Manager uses a passive management approach and tracks the performance of all of the constituents comprising the Index, which includes exposures to equities and CIS, which invest in property.
- ~ The anticipated level of tracking error of the Index in normal market conditions is up to 1%. This will be disclosed in the annual and semi-annual accounts of the ICAV.
- ~ On demand, you may buy or sell your shares on any Business Day, being a weekday on which commercial banks in Ireland and United Kingdom (and in any other financial centre that the Directors may determine to be relevant for the operations of the Fund) are open for normal banking business.
- ~ Any income generated by the fund will be reinvested to grow the value of your Shares.
- ~ The Fund is suitable for investors who are seeking capital growth over a medium to long term horizon, but who are willing to tolerate medium to high risks due to the potentially volatile nature of the investments.
